

# MD Tanvir Hossain

Front-end Web Developer

## SUMMARY

Driven and innovative MERN (MongoDB, Express.js, React.js, Node.js) developer with a passion for creating impactful web applications. Skilled in building responsive and user-friendly interfaces using HTML, CSS, and JavaScript, combined with the power of Bootstrap and the efficiency of RESTful API integration. Experience in developing full-stack solutions, including user and admin dashboards, login/logout functionality, and JWT authentication. Strong problem-solving abilities and a commitment to delivering high-quality code. Excited to leverage my skills and creativity to contribute to dynamic projects and drive exceptional user experiences.
